INSIGHTS 2018 Sessions

Session Title	Duration	Session Description
CP101: Auditing your payroll for compliance	1.5 hours	The auditing process never ends for payroll. From internal processing audits to external audits, payroll is constantly the lead. Creating payroll auditing procedures helps identify and correct compliance issues early. Self-audit is key!
CP102: It's a U.S. paid sick leave party and you're invited	1 hour	Laws requiring employers to provide paid sick leave to employees are growing in popularity across the U.S. This session will include a lively discussion about the paid sick leave trend, including the following: An overview of jurisdictions that have paid sick leave requirements; common requirements under paid sick leave laws; interactions between federal, state, and local paid sick leave requirements; strategies multi-state employers use to comply with paid sick leave requirements; overview of HCM technology solutions for sick leave.
CP103: State administered paid family and medical leave insurance trends in the U.S.	1 hour	With no current federal requirement for paid family and medical leave in the U.S., some states are getting creative in implementing state administered paid family and medical leave insurance programs for employees. This session will cover: • Overview of jurisdictions that have paid family/medical leave requirements • Common structures and requirements for paid family/medical leave laws • Proposals for new paid family/medical leave laws at the federal level
CP104: Tips for complying with employee scheduling laws while protecting your bottom line	1.5 hours	Whether they're called "fair", "predictive" or "secure", scheduling laws can be challenging for employers to implement. In this session, we'll provide an overview of existing and proposed employee scheduling laws in the US and Canada, and discuss strategies employers are using to comply with them, and how Dayforce can help minimize the impact to your business.
CP105: Canadian payroll operational and audit issues		Learn the top 10 items that will prepare you for a payroll audit. This session also provides an update on when to report fees for services on a T4A slip and provides clarification on near cash benefits.
CP106: Canadian legislative updates and trends for 2018: Compliance risk mitigation	1.5 hours	Part of an HR/Payroll professional's role is to monitor legislation, communicate changes, and determine organizational impacts. This will be a joint session led by subject matter experts (Ceridian and the Canadian Payroll Association) to review recent and upcoming legislative changes across Canada and highlight areas of compliance risk.
CP107: Canadian taxable benefits	1.5 hours	This session offers a review of applicable legislation and regulations and explains the key concepts used by Canada Revenue Agency and Revenu Quebec to evaluate taxability and assess common benefits including: group insurance plans (health, dental, life, accident, and wage loss), financial benefits (RRSPs, loans), housing, travel and other (gifts and awards, technology tools).

CERIDIAN INSIGHTS

Session Title	Duration	Session Description
CP108: A payroll "warm-up" for new payroll professionals (and friends of payroll too!)	1.5 hours	Are you new to payroll and want to become more "payroll " fit? Do you work with payroll professionals and just want to build your overall knowledge about payroll? Join this session to learn about how mastering the three basic "C's" of payroll (concepts, calculations, and controls) can help you bring your "A" payroll game!
CP109: Payroll bootcamp: Working on our payroll fitness!	1.5 hours	As busy payroll professionals, it's important to stay on top of the latest in payroll compliance. It's easy for us to become so busy with the effort it takes to complete a payroll that our fitness level with key payroll concepts suffers. Join us for a fun, engaging and "hands-on" session where we will dive deeper into key payroll concepts such as the Fair Labor Standards Act, worker classification and complex payroll calculations. Let's increase our "payroll fitness" together!
CP110: GDPR- a compliance partnership	1 hour	GDPR, the latest European data protection regulation, imposes important privacy requirements on both Ceridian and employers. In this session, we will use the components of this law to guide the way we can partner with employers to ensure compliance with GDPR, as well as general privacy best practices.
DF110: Viewing, editing, and approving timesheets	2 hours	Employee pay is only as accurate as the timesheet. Learn how to manage employee time and attendance on WFM timesheets. Practice editing punches, adding pay adjustments, entering transfers, and approving time and pay data. This is a Dayforce Live course.
DF111: Processing a simple pay run - Part 1	2 hours	Processing your payroll has never been easier! Practice the main steps performed each time you process payroll in Dayforce. You will also use the auditing tools and fixed format reports available in the Payroll feature to validate your payroll data. This is a Dayforce Live course.
DF111: Processing a simple pay run - Part 2	2 hours	Processing your payroll has never been easier! Practice the main steps performed each time you process payroll in Dayforce. You will also use the auditing tools and fixed format reports available in the Payroll feature to validate your payroll data. This is a Dayforce Live course.
DF112: Increasing payroll efficiency	2 hours	Did you know there are many ways to perform the same payroll functions in Dayforce? Over the years, we've identified some best practices and efficiencies. Do you sometimes need to populate similar amounts for employees monthly? Does your company gross-up earnings to cover the taxes owed on a bonus or taxable benefit? If you are looking for ways to be more efficient in these areas, this course is for you.
DF113: Benefit Process from A to Z	2 hours	Would you like to gain a better understanding of the benefit process from end to end? In this hands-on lab, explore the impact of benefit plan setup and eligibility on the employee enrollment process and ongoing benefit updates. You will also learn how to better diagnose common errors that have an impact on employee benefit elections and resulting payroll deductions.
DF114: Managing the compensation cycle in Dayforce	2 hours	Did you know that Dayforce can help you determine salary changes and allocate bonuses? In this session, you'll learn how to use the Manager Worksheet to review employee information and enter pay changes for multiple employees. You will also learn how senior-level managers can review and approve the compensation changes recorded for their indirect reports, and how HR Administrators can

		manage your organization's compensation cycles in Dayforce. This is a Dayforce Life course.
DF115: Managing job postings and candidates in Recruiting - Part 1	2 hours	Are you responsible for finding and hiring employees for your organization? Dayforce Recruiting can make the entire hiring process easier. This session teaches you how to create job requisitions, post jobs, manage candidates, review a list of talent to find preferred candidates, create offer letters, and hire the desired candidate all within Dayforce. This is a Dayforce Live course.
DF115: Managing job postings and candidates in Recruiting - Part 2	2 hours	Are you responsible for finding and hiring employees for your organization? Dayforce Recruiting includes robust functionality for Recruiters and Hiring Managers to make the entire hiring process easier. This session teaches you how to create job requisitions, post jobs, manage candidates, review a list of talent to find preferred candidates, create offer letters, and hire the desired candidate all within Dayforce. This is a Dayforce Live course.
DF116: Creating reports using Report Designer - Part 1	2 hours	Are you responsible for running a multitude of reports in Dayforce? Have you found a need to go beyond the standard reports available in the application? This course explains the basics of how to create reports to meet your unique reporting requirements. You will learn how to create and edit basic custom reports using the Report Designer, as well as how to create reports based on predefined templates or topics. This is a Dayforce Live course.
DF117: Creating reports using Report Designer - Part 2	2 hours	After learning how to create basic custom reports in "Creating Reports using Report Designer - Part 1", you can further define the data in your reports. Expand on your knowledge and learn to group fields, aggregate data using functions, and create filters to retrieve relevant data in your custom reports. You will also learn how to schedule reports to run on a regular basis.
DF118: Creating custom fields using Report Designer	2 hours	This session teaches you how to create custom fields that manipulate date and time data, reformat text, and perform arithmetic calculations on numeric data. This is a Dayforce Live course.
DF119: Advanced reporting- effective dates, parameters, and filters	2 hours	Have you ever had duplicate records on your reports after modifying Topics, and wonder why? If so, then this session is for you. Learn how to dissect Conditions on the Relationships tab that impact Topics with effective dates. We'll review where the Conditions reside, what the Conditions mean, and how to manipulate the Conditions to affect the records returned in your reports. Then we'll create Parameters and Filters that respond to the Conditions you create.
DF125: Introduction to Advanced Analytics	1 hour	This session will focus on how Dayforce's Advanced Analytics module will provide the insights you need to make better, data-driven decisions at all levels in your organization. In particular, the session will focus on our powerful new dashboards for retailers centered around KPI data.
DF126: What's new in Dayforce?	1 hour	Dayforce had a big year in 2018. Building on our updates in 2017, we have enhanced and expanded Dayforce to give you a more complete HCM experience. Attend this session to learn about enhancements to Dayforce, and see our exciting new capabilities in action. This will be a knowledge-rich, valuable and fun session that you won't want to miss.

Attend this session to learn more about recent updates to Dayforce with a focus on Payroll, and the value these new features can bring to your organization.
DF131: What's new in Dayforce? Data privacy tools	1 hour	The data privacy landscape is changing, and Dayforce can help. Learn how to leverage Dayforce tools to meet the changing landscape of data privacy. In this session, we will provide insight into data retention and demonstrate the new Data Management Center features. We will also share tips and techniques to help your organization achieve a balanced, proactive approach to data management.
DF132: What's new in Dayforce? Reporting edition	1 hour	We've made exciting updates to Dayforce Reporting. Are you embracing the latest features and getting the most out of your Dayforce experience? Attend this session to learn about updates to Dayforce with a focus on our new simplified reporting capabilities and tips on how to best leverage your data in Dayforce.
DF133: Best practices/impacts on carrier feeds during open enrollment	1 hour	Questions about carrier feeds and open enrollment? This is the session for you. We will discuss best practices for carrier feeds and exports to help you prepare for open enrollment. We will also go over the differences between Dayforce Link and XML. With a live demo, we will clear up any remaining confusion around carrier feeds, and you will leave this session confident and ready for open enrollment.
DF135: MyMove	1 hour	Looking to move from your Ceridian HR/Payroll product to Dayforce? Join us to learn about MyMove, the exclusively designed program that makes your move to Dayforce seamless and successful. Learn about tips and tools to best prepare your company, employees, and data for the move. We will discuss how MyMove partners with you and other Ceridian resources throughout the transition to help you be confident in your converted data.

CERIDIAN INSIGHTS

Session Title	Duration	Session Description
DF136: Product Council - Payroll	1 hour	Our customers are critical for driving our innovation and roadmap. At Ceridian, we are always striving to better understand our customers' needs and how our products and services can deliver more value. Join the Dayforce Product Council on Payroll to add your own voice to the Dayforce product roadmap, and learn what new features are planned. We will discuss what changes we've made this year based on your feedback, and review upcoming features and get your real-time feedback to make sure our future changes meet your needs.
DF137: Making Managed work	1 hour	You've decided to move to a Managed Services model, or maybe you're already there. This session will look at what makes a Managed outsourcing model work. Existing customers and Ceridian Managed experts will share best practices and lessons learned. We will walk you through the entire Managed lifecycle from implementation through the first year and beyond.
DF138: Data, insights and trends - getting the analytics you need through reports	1 hour	Do you have diverse and complex reporting needs? Attend this session to learn how creating your own custom reports using the Ad Hoc Reporting Tool in Dayforce can help. In this knowledge-heavy session, we will take you through best practices for creating reports and show you how to enhance the associated datasets. This session also introduces you to the new Simplified Reporting features and how to use the new Change Reporting tables.
DF139: Maximizing Organizational Readiness - a client perspective	1 hour	Ceridian provides many tools, webinars, and documentation in support of product releases. Learn how using these tools can ease the transition for your users with each release. In this session we will also hear from customers on how their organization prepare for a smooth upgrade process with each release.
DF140: How Ceridian's Project Management team can benefit your organization	1 hour	Discover how Ceridian's Project Management team can help you. This session is for pre-implementation and live customers. If you are new to Dayforce, we will discuss the support and benefits our Project Management team can provide throughout your implementation. For live customers, we will discuss the support and benefits our Project Management team can provide for complex projects with Professional Services.
DF141: Product Council - Workforce Management	1 hour	Our customers are critical for driving our innovation and roadmap. At Ceridian, we are always striving to better understand our customers' needs and how our products and services can deliver more value. Join the Dayforce Product Council on Workforce Management to add your own voice to the Dayforce product roadmap and learn what new features are planned.
DF142: Security best practices	1 hour	Attend the Security Best Practices session to hear from technology, legal and risk experts on how you can best prepare your organization. Join Chelsey Griggs, SVP Enterprise Risk Management, Lisa Clapes, VP, Corporate Counsel and CPO, and Ron Joyal, VP, Technology among other Legal and Technology representatives. In this session, our experts will share tips and recommendations on how your organization can work together to assess, review and respond to risks across your company.
DF143: Predictive Analytics overview	1 hour	Do you want to retain your top performers? Join this session to learn more about how Dayforce's Flight Risk capabilities can help you predict and mitigate turnover. During the session, we'll show you how our powerful machine learning algorithm can help your organization retain top performers by predicting undesired turnover

Session Title	Duration	Session Description
		before it happens, and by providing insight into the drivers of flight risk.
DF144: Performance Management overview	1 hour	Today's workforce needs a continuous and collaborative performance management approach. Gone are the days of the annual review - employees want real-time feedback and ongoing development. Attend this session to learn about employee needs that are driving performance innovation, and how Dayforce can help you adapt. Hear from our product experts and our customers to learn how you can innovate performance management at your organization with Dayforce.
DF145: Optimizing your Dayforce solution	1 hour	It's been a while since you implemented. Learn some tips and tricks and find out what services you can use to make sure Dayforce is humming.
DF146: Are managed services right for your organization?	1 hour	Is your organization having challenges with your current payroll or benefits department? Are you growing rapidly or expanding across borders? Maybe your HR or finance department just wants to focus on more strategic activities. In this session, we will understand what drives organizations to a managed model, how it works, what makes an organization a good fit for it, and how to measure the success of an outsourcing program.
DF147: Product Council - Mobile	1 hour	Our customers are critical for driving our innovation and roadmap. At Ceridian, we are always striving to better understand our customers' needs, and how our products and services can deliver more value. Join the Dayforce Product Council on Mobile to add your own voice to the Dayforce product roadmap and learn what new features are planned.
DF148: Benefits best practices	1 hour	Are you looking for ways to improve the enrollment experience at your organization? Attend this session to learn how to manage rates for your upcoming plan year, best practices for open enrollment, and how work and life events integrate with benefits for enrollment updates. Learn how you can do benefits better with the help of Dayforce.
DF149: Dayforce Onboarding: Bridging the gap between hire and start date	1 hour	Starting at a new company, or even starting in a new role at the same company, can be tough. Help your people meet their full potential by getting them up to speed and connected to company culture with an effective onboarding process. Attend this session to learn how you can use Dayforce Onboarding to streamline processes, create connections, and reduce time to productivity. Join our product experts, as well as customers DPI Specialty Foods, Kern Health, and Community Care to learn how you can make an impact with Dayforce Onboarding.
DF150: Advanced scheduling and labor planning	1 hour	Your people are your greatest asset -are you strategically deploying them? Attend this session to learn how our advanced scheduling and labor planning capabilities can help you maximize effectiveness while minimizing cost.
DF151: Product Council - Data Integration	1 hour	Our customers are critical to driving our innovation and roadmap. We continuously strive to better understand their needs, and how our products and services can deliver more value. Join the Dayforce Product Council on Data Integration to add your voice into the

		Dayforce product and services roadmap, and learn what new features are planned.
DF152: Product Council - Compliance	1 hour	Ceridian is continuously looking for ways to better understand how customers use our products and services especially amidst the changing compliance landscape. It all starts with communications! Ceridian offers Product News, Legislative blogs, monthly compliance updates, and more to keep you informed. Tell us how this is meeting your needs and how we can make it better!
DF153: Dayforce Assistant and the changing world of work	1 hour	Technology and new employee expectations are changing the world of work. Employees expect the technology advances they experience in their personal life to transfer into their work applications. Today's consumer apps are full of conversational and interactive experiences like chat boxes and voice automation but business applications are not keeping pace. Attend this session to learn about the driving forces and need for interactive experiences and how Dayforce Assistant is revolutionizing the way employees interact with their HCM applications.
DF154: Global payroll	1 hour	Do you have operations outside of North America or looking to expand globally? Attend this session to learn how you can leverage Dayforce's expanding native payroll services and Ceridian's partner network globally to support the needs of your growing business.
DF155: Learning Overview	1 hour	Learning should be an interactive and engaging experience instead of a passive activity. With Dayforce, learning becomes part of the employee life cycle. In this session all about Dayforce Learning, we will discuss the key benefits of our fully-featured Learning Management System (LMS) and how you can drive engagement and share knowledge across your organization.
DF157: Power up your expertise with Dayforce Customer Knowledge Base	1 hour	Are you missing out on key support resources? Learn how to take advantage of the Dayforce Customer Knowledge Base (KB). The KB provides troubleshooting and how-to information that aims to address your day-to-day operational needs within Dayforce. It also includes reference material documents and multimedia content. We'll provide best practices for navigating and searching the KB. We'll also share upcoming KB enhancements and provide you an opportunity to tell us how we can make sure the Knowledge Base meets your information needs.
DF158: Product Council - Human Resources	1 hour	Our customers are critical to driving our innovation and roadmap. We continuously strive to better understand their needs and how our products and services can deliver more value. Join the Dayforce Product Council on Human Resources to add your voice into the Dayforce product roadmap and learn what new features are planned.
DF159: Year end, year-round	1 hour	Are you responsible for processing year-end payroll or complying with the ACA in the U.S. using Dayforce? Learn how to verify your company's year-end setup, review key dates and reports, and print and file your year-end tax returns (including W-2s and 1099s). This session will also cover how to process and file your company's 1094-C and 1095-C forms, describes important dates to ensure your files are remitted on time, and discusses the required data for form pre-population. This session is beneficial for your first year-end with Dayforce.

Session Title	Duration	Session Description
DF160: Leveraging mobile to improve employee experience	1 hour	Do more on the go. The Dayforce mobile app puts HCM in the palm of your hands. Attend this session to learn how you can use Dayforce without your desktop. We will discuss our recent mobile enhancements and provide tips on how you can drive user adoption for mobile within your organization.
DF161: Recruiting overview: Elevate your recruitment strategy with Dayforce	1 hour	Unemployment is at a low and the battle for top talent is intensifying. With a shortage of skilled candidates, organizations are struggling to recruit and hire for their open positions. Attend this session to learn how Dayforce can help you attract top talent, find the right fit and reduce time to hire. Join Ceridian product experts and our customers, Advance Financial and ATI Physical Therapy, to learn how Dayforce can help you elevate your recruitment strategy.
DF162: Best practices for privacy, security, and data retention to protect your business	1 hour	Each year in the news we hear more about security and privacy of data. Employers are expected now more than ever to proactively manage their data, and in some cases have a legal obligation to delete data no longer needed. In this session we will learn how Dayforce offers customers the ability to pro-actively manage data in light of privacy and security best practices.
DF163: Product Council - Talent Acquisition	1 hour	Our customers are critical to driving our innovation. Join the Dayforce Product Council on Talent Acquisition to add your voice to the Dayforce Recruiting and Onboarding product roadmap. Discuss upcoming development priorities, view our latest product designs, and share your insights with fellow users. This session will also include presentations from our mobile team to better understand our roadmap for the Dayforce mobile application, and Ceridian's compliance group will share relevant legislative updates.
DF166: Integrating into the broader ecosystem	1 hour	Technology is better when it all works together. Learn how your business can exchange data with your favorite business applications and populate your internal systems. This session will cover Web Services, SFTP Exports, and the Dayforce Developer Network. We will introduce you to the extensive data exchange functionality within Dayforce and how you can use standardized methods to securely share data with other applications.
DF167: Product Council - Talent Development	1 hour	Our customers are critical to driving our innovation. Join the Dayforce Product Council on Talent Development to add your voice to the Dayforce Performance, Learning, Succession, and Compensation product roadmap. DF197: How and when to engage Ceridian Services to maximize success	1 hour	Get the most out of Ceridian's Services. In this panel discussion, our customers, Foth and Van Dyke, KLX, Longo's and Brundage will share their experiences using Ceridian's Services prior, during and after their Dayforce implementations. Discover their results and the approach that led them through implementation readiness activities, gaining best practices, challenging policies and assisting with project management to maximize the value of Dayforce.
DF198: Improving employee wellness with Dayforce	1 hour	Is your benefits platform benefiting your people? Learn about how you can use Dayforce Benefits to go beyond a simple benefits plan to create a real impact for your people. In this session, our customer, BCBS Rhode Island, will discuss how they used Dayforce to develop a very robust well-being program from wellness requirements to smoking surcharges, and wellness incentives to support their workforce.
DF199: Seeing the light at the end of the intermittent FMLA tunnel	1 hour	Are you still tracking FMLA leave using calendars and spreadsheets? Dayforce is here to help. In this session, our customer, Nipro, will share their success in developing and implementing a streamlined approach to tracking intermittent FMLA using Dayforce's Entitlements and Custom Reports. This session will include examples of Nipro's old/manual system, steps to develop and implement the process in Dayforce, plus examples of the results, along with best practices for maintaining the data.
DF200: Leveraging your data with Dashboards and Reporting	1 hour	As your role becomes more strategic, you need to ensure you are leveraging the right data to make informed decisions and drive business results. Attend this session to hear how our customers are leveraging their Dayforce data to make an impact. They will discuss the benefits of Dayforce's Dashboards, Reporting, and ODATA tools and how they use these insights as part of their business strategy.
DF201: ROI with Dayforce	1 hour	Are you considering implementing Dayforce? Attend this session to hear from our customer, Ergotron, about their fast and effective implementation and the ROI they have already experienced. Ergotron will discuss the strong partnership they have formed with Ceridian and how they expedited implementation to go live within 60 days. Hear about their implementation experience and get tips for how to have a successful implementation that drives maximum ROI.
DF202: Tips and tricks for a successful implementation	1 hour	If you're thinking about moving to a new HCM solution, or you've just made your decision to change, this session is for you. This panel will include leaders from Motion Recruitment and Landmark Theatres and will focus on the most important things you'll need to consider as you prepare for and go through implementation.
DF203: XOXO: More than just hugs and kisses	1 hour	Join the XOXO family. Attend this session to learn about our customer advocacy program, XOXO. Hear from our customers, Power Construction and Club Fit, to learn what the program is, the types of activities and initiatives it offers, and how it benefits their organizations.
DF210: Wise Consulting: Always improving - the "wise" way to perfect processes	1 hour	Do you want to get the most out of Dayforce HR, Benefits and Payroll? Join our partner Wise Consulting as they guide you through how to create processes to streamline your day-to-day activities. This session will cover proven tools and provide unique insight from past and current users that you'll be able to use right away.

CERIDIAN INSIGHTS

Session Title	Duration	Session Description
DF211: Netspend and Visa: How you can support your employees' financial education using paycards	1 hour	Join us for a panel discussion and learn from Goodwill Industries of the Southern Rivers, Inc., how they rolled out a customized paycard program that streamlined their payroll process and provided employees with a solution that helps to promote financial stability. Moderated by subject matter expert Netspend®, Goodwill will discuss how their paycard solution gives employees the ability to save money, become educated about their finances and how employees became internal paycard advocates, organically increasing employee adoption. Visa® will join as a panelist presenting research findings centered on how paycards are positively viewed by employees.
DF213: PayTech: Implementation-a recipe for success	1 hour	Bringing a new technology into your organization? Join our partner PayTech to learn best practices for implementing new systems and to identify common pitfalls that can make deployments seem daunting. This session explores tools and strategies to help ensure a successful launch and organization-wide adoption.
FIT101: Workforce Management: Become the data detective and configuration expert	12 hours	As an accomplished WFM user, do you crave more information to make your configuration and processes top notch? Enhance your understanding of the WFM data schema and acquire the skills needed to generate WFM reports that will transform your scheduling and timesheets. Analyze and resolve the most frequent tickets initiated by WFM users, and gain the troubleshooting know-how needed to become more independent and productive. If you are ready to take your WFM expertise to the next level, this session is for you.
FIT102: Dayforce Payroll: Become an expert	12 hours	You are already an accomplished Dayforce Payroll user. What's next? Get an enhanced understanding of the Dayforce Payroll data schema and process flow. Apply this knowledge to create custom payroll reports that address your auditing requirements. Analyze and resolve complex tickets routinely initiated by Payroll users, and become more self-sufficient and productive. Learn tips to streamline your payroll data entry and return to your company as the Dayforce Payroll guru. This session is for both U.S. and Canadian Payroll users.
FIT103: Advanced technical training	12 hours	Are you considered the HRIS administrator for your organization? Do you want to take your technical expertise of the Dayforce application to the next level? This session will give you a solid understanding of the data structure at work behind the scenes of the UI. Apply this advanced knowledge to reports and interfaces to reach the ultimate goal of improved end-user self-sufficiency.
FIT104: Have more productive and engaged relationships using RelateAbilityTM and TeamRelate	12 hours	Improving our ability to relate to others helps build high performance teams and makes work life better for individual contributors and leaders alike. Ready to take your ability to collaborate and influence others to the next level? Join Dr. Wade A. McNair, co-author of RelateAbility™ with over 20 years of experience in Talent Management, Leadership, and Organizational Development and enhance your understanding of the science and theory behind the key TeamRelate components: Communication Styles and Core Convictions. Attendees will receive a complimentary copy of Dr. McNair's book, RelateAbility™.

Session Title	Duration	Session Description
PD101: Situational Leadership: Confessions of a micromanager (and how I learned to stop)	1 hour	You know what needs to be done. You know how to do it. But now you're leading the team, not doing the work. How do you get high quality results from your team - with high productivity and keeping them fully engaged? Oh, yeah, and without letting that control freak micromanager inside of you run amok? This workshop focuses on what you need to do to give your people the exact leadership behavior they need, when they need it, whether it's a newbie or a 20-year vet.
PD102: Hot trends: How to build a learning culture	1 hour	Employee expectations for abundant, rich, and productive learning opportunities have increased. Millennials see this as a must-have requirement for their employment experience. In this session you'll learn why creating a learning organization will significantly contribute to your employees' engagement and your company's success. Then you'll hear how to put the hottest trends to work for you - from microlearning to gamification, content curation, and the ongoing demand for soft-skills training.
PD103: Managing to make a difference	1 hour	The pace of change continues to accelerate. Major disruptions are commonplace. Now, more than ever, employees of all generations expect the workplace to deliver a meaningful experience. They want to know that you genuinely care about them, that they are making a difference in the world, and that they are significant. Join us to learn practical techniques that enable you to meet these expectations.
PD104: A new model of career exploration	1 hour	Employees in organizations of all sizes continue to express their expectation for more opportunities for career growth and exploration. "Career and development"• continues to be one of the top three drivers of engagement globally. Join us to learn about an employee-centric, comprehensive model that offers career exploration skills along with training, mentoring, and employee-led conversations about existing roles. You will walk away with new ideas about how to transform career development in your organization.
PD105: Driving an innovative culture through neurodiversity	1 hour	It's proven that inclusion efforts drive business and encourage innovation. Hiring and retention practices target gender diversity, cultural diversity, and physical diversity, but what about neurodiversity? Join us to discuss how programs centered around respecting neurological differences, such as dyslexia, attention deficit hyperactivity disorder, autism and others, may offer the latest competitive advantage in the war for talent.
PD106: The GIFT formula: How to help your people grow	1 hour	Learn a proven formula that works to help your people grow, and helps you become more effective as an HR pro. We call it the GIFT Formula, but you'll call it Eureka! Develop the skill of "Honoring Themes,"• an innovative way to improve relationships that result in greater engagement and retention. You'll also learn how talent is different from skills and knowledge, building on strengths and more, in this session focused on practical application to real world challenges you're facing.
PD108: A new model of career exploration	1 hour	Employees in organizations of all sizes want more opportunities for career growth and exploration. and development continues to be one of the top three drivers of engagement globally. Join us to learn about an innovative, employee-centric, comprehensive model that offers career exploration skills along with training, mentoring, and employee-led conversations about existing roles. You will walk away
